WORK EXPERIENCE

JAVASCFRIPT SOFTWARE ENGINEER
PROFAIR GAMES Jan 2018 - Jun 2020

- Conducted regular code reviews and mentored junior developers, resulting in improved code quality and team productivity.
- Implemented a robust testing strategy, including unit tests, integration tests, and end-to-end tests using Jest and Cypress
- Introduced best practices for web security, addressing vulnerabilities like Cross-Site Scripting (XSS) and Cross-Site Request Forgery (CSRF) to enhance platform security
- Actively participated in an Agile development environment, attending daily stand-ups, sprint planning, and retrospectives to ensure project milestones were met

INSTRUCTOR
DIGITAL INSTITUTE Jun 2020 - Jan 2022

- Taught full-stack JavaScript development, covering frontend (HTML, CSS, JavaScript, React, Next.js) and backend (Node.js, MongoDB) technologies.
- Conducted live coding sessions, workshops, and technical deep-dives into frameworks, databases, and deployment strategies.
- Implementing responsive design and ensuring cross-browser compatibility.
- Provided individualized feedback through code reviews and mentoring sessions, helping students strengthen their coding skills and prepare for real-world jobs.

WEB DEVELOPER
DIGIDO Jun 2022 - Jan 2024

- Developing and maintaining web applications using Next.js and other related technologies.
- Collaborating with cross-functional teams including designers, product managers, and other developers to create high-quality products.
- Implementing responsive design and ensuring cross-browser compatibility.
- Participating in code reviews and providing constructive feedback to other developers.

ONAIM
GAME DEVELOPER Jun 2024 - Apr 2025

- Developed browser-based games using Phaser.js, PixiJS, and TypeScript, focusing on real-time gameplay and interactive experiences.
- Built core game mechanics, including spin logic, match systems, betting features, and player progression flows.
- Integrated frontend game systems with backend services using Supabase and real-time communication with WebSockets.
- Collaborated with UI/UX designers to create dynamic, user-friendly game interfaces and responsive layouts.
- Optimized game performance for smooth experiences across different devices and browsers, improving load times and runtime stability.
